

CleanMount™ with PatientView™

Strongarm Healthcare's CleanMount keyboard and monitor wall arm features a fully enclosed cable passageway eliminating all external cable clutter, and its smooth, non-porous surfaces are ultra-cleanable. CleanMount's multiple pivot points and vertical articulation allow the monitor and keyboard to be quickly and easily repositioned to achieve optimal ergonomics for each user. Durable, cast aluminum construction makes the CleanMount exceptionally suitable for hospitals and all healthcare, clean room, and point-of-care environments where cleanliness is vital.

The CleanMount PatientView™ feature provides the ability to pivot the display and keyboard independently, allowing the patient to view the information displayed on the screen.

Features

- Internal cable passageway minimizes exposed cables
- 100% counterbalanced and pre-wired for your monitor/display
- 16" of vertical articulation
- Remains level throughout vertical and horizontal movement
- Secure mechanical lock-in-place feature
- A variety of keyboard enclosures, trays, and work surfaces available
- All trays and work surfaces include a USB powered USB 3.0 hub (powered USB hub optional)
- "No bounce" platform for typing
- Tilting display mount with standard VESA bracket
- Pivoting ergonomic display mount reduces glare and enhances visibility
- Robust aluminum construction, powder-coated antimicrobial finish
- Dual swivel ends allow for precise ergonomic repositioning
- Optional rotational stops
- Fully extends 40.375" from mounting point, up to 58.375" with optional horizontal extension*
- Folds to 10" depth for convenient stowaway
- Mounting tracks available from 12" to 72"
- Limited Lifetime Warranty
