CleanMount

Patient Interactivity

The CleanMount features a wide range of articulation, including swivel joints at both the display/keyboard and mounting point ends allowing for optimal patient interactivity. CleanMount folds to a compact 11" depth when stowed.

16" of counterbalanced vertical articulation provides effortless repositioning

The PatientView™ feature allows the display and keyboard to be rotated independently

Infection Control

- Anti-microbial powder-coat finish
- Crevice-free for ultra-cleanability

Lock-In-Place, No Downward Drifting

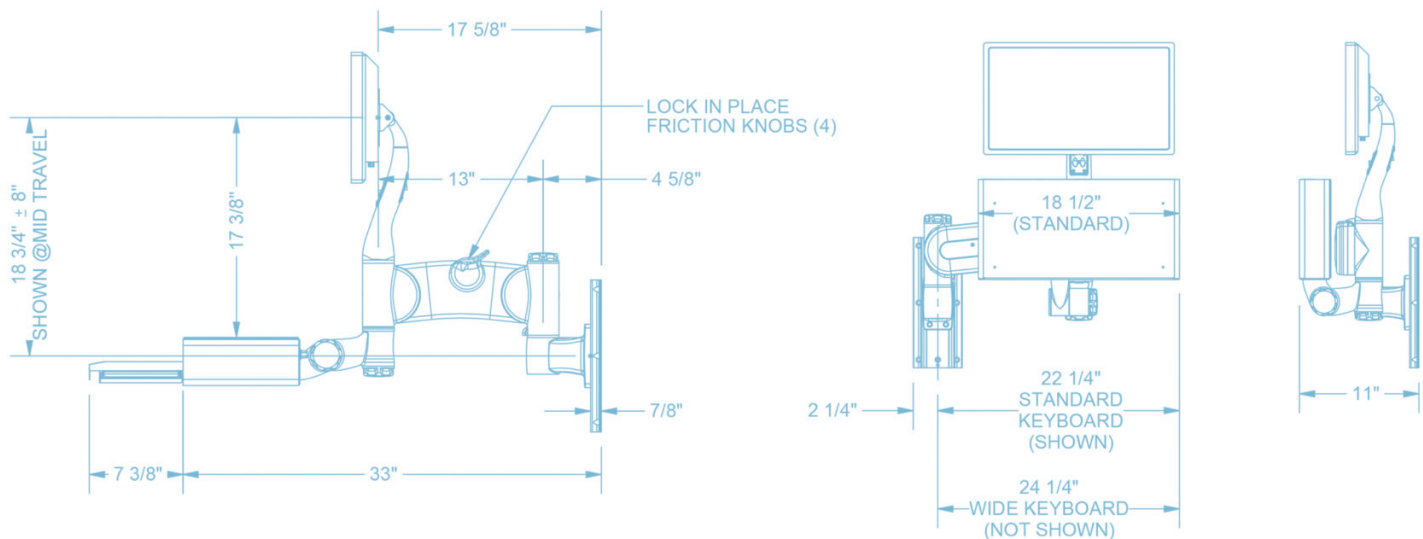

- Sturdy, no-bounce work surface
- Secure vertical locking lever

Strongarm Healthcare offers a wide selection of optional CleanMount accessories that are either track-mounted or secured with custom VESA-mounted brackets.

Accessories include PC holders and enclosures, dual display mounts, horizontal extension arms, and brackets and mounts for bar code scanners, card readers, webcams, and more.
